

T41 SPRING Tenda per finestra a caduta . Window vertical blind

Classe 2

Tenda a copertura verticale con minimo ingombro funzionante a catenella, con profilo frangivento e braccetti rotanti scorrevoli in guide d'alluminio. Profili alluminio e particolari in resine termoplastiche. Applicazione anche a parete o soffitto. Verniciatura con polveri poliestere eseguita seguendo rigidi standard qualitativi. Optional applicato in spallina: Zanzariera funzionante a catenella o molla di richiamo, di minimo ingombro e applicabile ad incastro. Larghezza min. 75 cm.

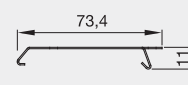

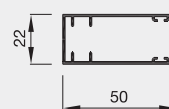

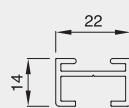

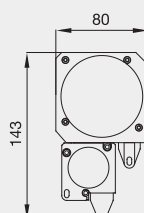

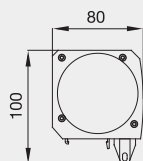

N.B. L'azionamento a catenella della zanzariera SPRING va installato sul lato opposto a quello della tenda.

Vertical covering awning with overall dimensions, chain driving, with intermediary windbreak and rotating arms flowing in side aluminium rails. Aluminium profiles and details in thermoplastic resins. The cloth is completely closed in its shutter-box. Wall or ceiling application even. Painting by polyester following rigid qualitative standards. Optional: Mosquito net operates by chain or by recall spring, characterized by overall dimensions and by gain application. Min width 75 cm.

N.B. The chain driving of the SPRING mosquito net must be installed on the opposite side to that of the awning.
